- Participated in SIH 2024 Internal Hackathon and became 1st Runner's Up.

Skills

- **Data Structure & Algorithm**
- **Python Programming & My SQL**
- **Java and C Programming**
- **Machine Learning**

Portfolio

Welcome to my portfolio! I'm Soumodip Das, and I'm thrilled to share my journey as a dedicated Python and Machine Learning programmer. With a solid background in computer science and a genuine passion for tackling complex challenges, I infuse creativity and technical know-how into every project I take on. Whether I'm crafting smart models, diving into data analysis, or creating efficient solutions, I'm always excited to embrace new challenges and grow my skills. Take a look around my portfolio to see how I transform ideas into meaningful projects!

My Projects: -

Full-Stack Chat Application: **Completed**

- Built a real-time chat app using React, Node.js, Tailwind, Express, MongoDB, and Socket.IO.
- Added user authentication, chat rooms, and private messaging.
- Designed a responsive UI for an enhanced user experience.
- Deployed on Vercel with CI/CD pipelines.

Resume Building Website: **Ongoing**

- Developed a web app for creating professional resumes with customizable templates.
- Built using HTML, CSS, and JavaScript for a user-friendly and interactive experience.
- Implemented responsive design for seamless use across devices..

Portfolio Website: **Completed**

- Created a responsive portfolio to showcase skills, projects, and experience.
- Used HTML, CSS, and JavaScript for a visually appealing, interactive design.
- Ensured cross-device compatibility with responsive design principles..
